

# Under Sink Water Filtration System

---

## Choose A Filtration System To Meet Your Needs

The 475 Quick Change Filter Series offers 3, 2 & Single Stage options to provide solutions for a variety of water problems including sediment, rust, bad taste & odor.

### Features & Benefits:

- Low cost alternative to RO
- No reject water (100% water used)
- Leaves healthy nutrients in water
- Removes impurities as small as 0.2 microns!
- Installation & filter changes are quick and easy
- Quick change bayonet-style disposable cartridges are more sterile and can be changed in seconds
- Includes standard chrome faucet, inlet saddle valve, and 5ft ¼ tubing

***Change filters in seconds  
without turning off water!  
No tools required!***

### Choose From Five Models:

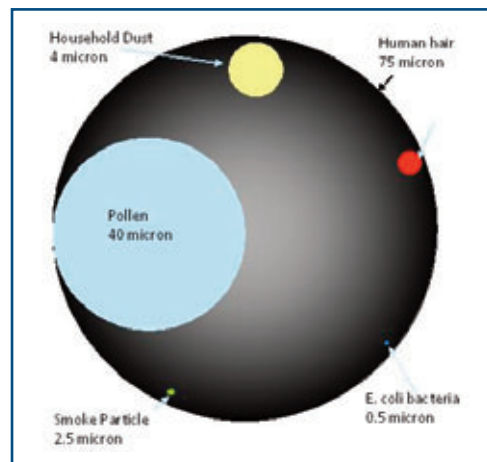

1. Three Stage Ultra Filtration
2. Dual Stage Sediment / Taste & Odor
3. Single Stage Sediment
4. Single Stage Coconut Carbon Block
5. Single Stage Granular Activated Carbon

## CHOOSE A FILTRATION SYSTEM

- ✓ **3 Stage Ultra Filtration** - reduces lead, VOC (pesticides, herbicides, chemicals), THM, chlorine, taste, odor & sediment as small as 0.2 microns.
- ✓ **Dual Stage Sediment / Taste & Odor** – removes sediment, bad tastes and odors. 5 Micron removal.
- ✓ **Single Stage Sediment** – removes suspended sediment that makes water cloudy. 5 Micron removal.
- ✓ **Single Stage Coconut Carbon Block** – removes bad tastes & odors while filtering out particles as small as 10 microns.
- ✓ **Single Stage Granular Activated Carbon** – removes bad taste and odor. Perfect for chlorine reduction on clean municipal water supplies.

QC-3

11.8"w x 4.5"d x 14.3"h

QC-2

6.3"w x 3.9"d x 13.4"h

QC-1

2.8"w x 3.2"d x 12.4"h

Standard chrome faucet included.  
Designer faucets available.
